

# Petition to say NO to the Acorn Biodigestion Plant near Haverhill and Withersfield

**West Suffolk MP Nick Timothy says:  
“We must stop the Bio-Digestion plant”**

*Dear Resident*

As you know, the planning proposal for a bio-digestion plant to be built at Spring Grove Farm, near Haverhill and Withersfield, is due to be heard in April. I recently sent a second detailed objection to this proposal to Suffolk County Council. It is the wrong proposal for the wrong location, would deter much-needed investment from Haverhill, harm residents' quality of life and pose an environmental hazard. For this reason, I am asking you to sign my petition overleaf so that we can show the planning committee that residents are deeply opposed to this plan. Thank you and very best wishes,

*Nick Timothy*
